

ToT CERTIFICATION COURSE

Supply Chain Due Diligence Manager

by Delegation of German Industry and Commerce in Eastern Africa (AHK)

Become Certified as a Supply Chain Due Diligence Trainer!

With the world's ESG business environment and moving toward mandatory supply chain due diligence reporting requirements, businesses must develop and implement processes to show that their operations and supply chains are free of human rights and environmental violations. The necessity to invest in due diligence know-how and skilling has never been greater.

The ToT is purposefully designed to train companies and industry professionals on practical and effective supply chain due diligence under its "Supply Chain Due Diligence Manager" ToT Certification Course. The course prepares professionals and compliance officers in light of the rapidly shifting business environment.

Based on the EU's Directive on corporate sustainability due diligence (Directive 2024/1760) and the UN Guiding Principles on Business and Human Rights, **the course combines German training and pedagogy standards with a curriculum adapted to the East African business environment and will also be targeted to your company's sector of operations.** The contents and teaching method enable participants to plan, develop, implement, and monitor due diligence in their supply chain successfully. The training is conducted by AHK Services Eastern Africa Ltd.

Benefits

- Learn to plan, develop, implement, and monitor supply chain due diligence successfully in line with your company goals,
- Enhance your compliance by building your application-based supply chain due diligence capabilities,
- Certification course developed by industries for industries: ensuring industry requirements are fulfilled,
- Course conducted by qualified and experienced experts and practitioners.
